

Established in 1851, Wooster is one of the oldest manufacturers of paint applicators in the USA. Wooster's wide variety of professional painting products are carefully engineered to perform at the highest levels. From brushes and rollers to trim tools and specialty items, depend on Wooster to have the products you need.

PROFESSIONAL ROLLERS

Flat & Satin Paints

Super/Fab® (R239): Ideal for all flat or satin paints and stains. It resists matting for complete coverage and smoother results. Its Green™ double-thick polypropylene core resists water, solvents and cracking. Available in 7" and 9" with 3/8" nap, medium/semi-rough surface.

Econoline™ (R200): Ideal for latex flat paint, it's your economical choice for quality performance. Available in 7" and 9" with 3/8" nap, medium surface.

All Paints

Candy Stripe (R209): Perfect for layoff of all oil-based coating. Made of a woven mohair blend fabric for a good capacity and resiliency. Available in 7" and 9" with 1/4" nap, smooth surface.

Pro Tiz (R265): High-capacity, yellow foam gives you lint-free and minimal-stipple results with all oil-based paints, enamels and varnishes. Available in 7" and 9" with 3/8" nap, smooth surface.

Super Doo-Z® (R206): Shed-resistant for all paints, enamels, primers, urethanes and epoxies. Resists matting for the smoothest professional finish. Available in 7" and 9" with 3/8" nap, medium surface.

Roller Covers

Tiz Twin Pack (R730): Ideal for smooth surfaces with oil-based enamels, gloss and semi-gloss paints and varnish. An economical way to achieve superior results with no lint and minimum stipple. Available in 7" and 9" widths, 1/8" nap, smooth surface.

Budget (R210): An economical alternative for coverage with all latex flat paints. Available in 9" widths, 3/8" nap, medium surface.

Economy Trim Rollers

Pro Tiz® Roller (R039): Lint-free yellow foam for all paints, enamels and varnishes. Available in 3" width, 3/8" nap.

Miscellaneous Sign Supplies

Electro Pounce

Save time and money by simply drawing with this electric pencil rather than using outdated pounce wheels. Crisp, clean holes of various sizes can be easily pounced in one or many sheets of paper by simply adjusting the voltage dial. The Electro Pounce comes complete with a standard 10-foot pounce cord and a dozen replacement needles.

HAN-SEE

Pounce Pads & Powders

#202 Shopounce – 3 ½" x 5"

For trucks, windows and small flat work. Easy refill. Plastic holder and storage tray. Replaceable terry pads available.

#404 Pounce Plus 3 ½" x 13 ¾"

For outdoor, electrical, walls and large commercial signs. Holds ½ lb. of pounce powder or charcoal. Easy refill. Wood holder and storage tray. Long-lasting, replaceable terry pads available.

Pounce Powders

Blended Black Charcoal: A unique blend of charcoals that minimizes peaking and prevents pounce stain. Available in 20 oz. containers.

Blended White Charcoal: An opaque blue/white blend of charcoals that provides excellent visibility and hold without peaking. Available in 20 oz. containers.

Genuine Gold Leaf & Gold Size

Our Genuine Gold Leaf is sold in books of 25 leaves; 20 of these books equal a pack. The leaves are 3 ¾" square. Use with our Quick or Slow Drying Gold Size available in quarts.

23K Doublegold Patent:

Choice for outdoor signs and architectural gilding. Doublegold is 20% thicker than standard 22K to prevent pinholes that might otherwise occur.

22K XX Deepgold:

Standard "surface" leaf for interior applications.

18K LemonGold and 12K WhiteGold:

18K LemonGold and 12K WhiteGold have 25% and 50% silver respectively and no copper, thus yielding lighter, whiter shades often used as a contrast with 23K gold.

Composition Aluminum Variegated Leaf:

An alternative to genuine gold or silver. Composition leaf, a brass alloy, is economical and does not tarnish. Considerably thicker than genuine gold and silver, it may be handled—but do not burnish. The leaves are 5 ½ inches square. Variegated leaf is a brass leaf artificially oxidized to create swirls of red, green, blue and black, and can provide additional color options.

Your One-Source Supplier

Midwest has been the leader in providing you with quality products and service since 1932. We've got the **experience** of the past and the **people** for moving forward into the future as technology changes. You can count on us to provide you with the best in service and products.
