LYSON® Digital Ink

An Economical Alternative to OEM Ink

With the increasing competition in today's digital printing market, choosing the right ink – at the right cost – is critical to both the quality of your work and your profit. Nazdar's Lyson® Series offers substantial savings over OEM inks and provides easy conversion on a variety of industry leading digital printers. Unattended printing is safe and reliable with the no-clog, fast-drying formula. And, with the industry's strongest third party warranty, Nazdar stands behind every drop of Lyson Ink, so you never have to worry about quality or reliability.

1300 Series Digital Imaging Ink – Mimaki JV3 Printers

Lyson® 1300 Series digital imaging inks are designed for use in the Mimaki JV3 digital printers and install just like your OEM inks. It's easy to convert from SS2 to Lyson 1300 with no profiling necessary. Features include:

- Long-term exterior performance with proven resistance to the effects of UV degradation and color fading.
- High impact, high intensity colors equivalent to the original OEM inkset.
- Consistent color density values.
- Excellent adhesion and flexibility on most self-supporting flexible vinyls and pressure-sensitive vinyls.
- Fast drying characteristics that minimize your risk of"blocking".
- Reduced color management costs—color matched to SS2 inks so there's no need to color profile when replacing existing OEM product.

SUBSTRATES: Pressure-sensitive vinyl, vinyl and backed mesh banner media.
Available in 440 mL cartridges and 1-Liter containers.

Compatible Mimaki Printers

1000 and 1300 Series inks work in the following Mimaki printers:

JV3-75SPII
JV3-130SPII
JV3-160S
JV3-160SP
JV3-250SPF

Midwest offers the complete line of Mimaki printers and cutters. Ask a Midwest representative how you can own one of the most popular printers on the market today!

1000 Series Expanded Gamut Ink – Mimaki JV3 Printers

Nazdar's Lyson® 1000 Series digital imaging inks are designed for use in the Mimaki JV3 digital printers and install just like your OEM inks.
With Lyson 1000, you get:

- Long-term exterior performance with proven resistance to the effects of UV degradation and color fading.
- High impact, high intensity colors with expanded color gamut for great-looking prints.
- Consistent color density values.
- Improved color profiles.
- Excellent adhesion and flexibility on most self-supporting flexible vinyls and pressure-sensitive vinyls.
- Fast drying characteristics that minimize the risk of "blocking".

SUBSTRATES: Pressure-sensitive vinyl, vinyl and backed mesh banner media.
Available in 440 mL cartridges and 1-Liter containers.

2000 Series Low Odor ECO Digital Inkjet Ink – Roland Printers

Lyson® 2000 Series digital imaging inks are designed as a true, low-odor alternative to "eco" type ink sets. Primary features include:

- OEM color match to ECO-SOL Max® and Eco Ultra™ —no need to profile when replacing these inks.
- Compatible with Eco™ and Eco+™ systems.
- Excellent exterior performance with proven resistance to the effects of UV degradation and color fading.
- High impact, high intensity colors equivalent to the original OEM (as above) ink set.
- Reduced odor and VOC content.
- Consistent color density values.
- Excellent adhesion and flexibility on most digital inkjet media.
- Enhanced drying characteristics minimize your risk of "blocking".

SUBSTRATES: Pressure-sensitive vinyl, vinyl and backed mesh banner media.
Available in 220 mL cartridges, 440 mL cartridges and 1-Liter containers.

Compatible Roland Printers

2000 Series ink works in the following Roland printers:

SJ-1045	VP-540V
SP-540V	SJ-540EX
SJ-740EX	SJ-540
SJ-740	SC-545EX
SJ-600	VP-300V
SJ-745EX	SC-540EX
SP-300V	SC-540
SJ-640EX	SC-545EXW
SJ-640	SJ-1000
SC-500	SP-300
SJ-645EX	SJ-500

Midwest Digital Technicians

Count on Midwest's Technical Support Staff to provide first-rate service for your business. They provide installation and training for your digital equipment, and give you the support you need to further your knowledge and profits. The technicians are also trained to assist you with all your color profiling needs and can provide information on available media options for your specific application.
