## FILMS

### Aspect Quadra Film

**Waterproof with Dye & Pigment Inks!**

This high-density, 4-mil transparent polyester film is heat stabilized and heat resistant with a special anti-static coating to prevent curling.

The ink-receptive and ink-absorbing layers reduce dry time to less than one second! Quadra film always provides consistent results, giving you the ability to archive your positives for future screen making. Quadra film is waterproof when used with dye- or pigment-based inks.

- Anti-curl, anti-static backcoating
- High image density (Dmax)
- Low background density (Dmin)
- Waterproof when printed with dye and pigment inks
- Archivable (film can be stored)

Quadra film comes in a variety of sizes and is available in rolls or cut sheets.

MW Part #	Size
AUTAQ20214	16.5" x 100' roll
AUTAQ18923	24" x 100' roll
AUTAQ20215	36" x 100' roll
AUTAQ18926	44" x 100' roll
AUTAQ20216	50" x 100' roll
AUTAQ20186	54" x 100' roll
AUTAQ18927	62" x 100' roll
AUTAQ25253	65.75" x 100' roll
AUTAQ20740	8.5" x 11" (100 sheets)
AUTAQ20765	8.25" x 11.7" (100 sheets)
AUTAQ20742	11" x 17" (100 sheets)
AUTAQ20743	13" x 19" (100 sheets)
AUTAQ20745	17" x 22" (50 sheets)
AUTAQ20744	16.5" x 23.4" (50 sheets)

### Zeta II Film

**Works with Pigment & Dye Inks!**

Zeta II is a specially formulated clear film for producing high-density ink jet film positives.

Zeta II delivers outstanding results with both pigment- and dye-based inks, making it a truly versatile solution for various printer configurations.

- High resolution for excellent image reproduction
- High image density (Dmax)
- Low background density (Dmin)
- Dimensionally stable polyester base (4 mil) for accurate registration
- Water resistant when printed with dye or pigment inks

This microporous clear film is wound on 2" cores and available in the sizes listed below.

MW Part #	Size
AUTZ22761	17" x 100' roll
AUTZ22762	24" x 100' roll
AUTZ22763	36" x 100' roll
AUTZ22764	44" x 100' roll

**Note:** Quadra and Zeta II films are compatible with Epson, Mimaki, Roland and other dye or pigment film positive printers.

**See Pages 2 & 3 for MORE products to complete your Ink Jet Film Positive System!**

## TRIO Film

**Combines performance with value!**

Autotype TRIO film is designed to provide superior performance at a mid-level price. Available in a variety of widths from 17" up to 60", this film is well-suited to the needs of large format printers where stellar performance and great value are equally important.

Autotype TRIO film works well on leading inkjet printers like Mimaki, Epson, HP and other printers, and is unique in that it works equally well with pigment and dye ink.

- Superior registration
- Excellent water resistance
- High UV density
- Can be used with dye and pigment inks

MW Part #	Size
AUTT27272	17" x 100' roll
AUTT27276	24" x 100' roll
AUTT27277	36" x 100' roll
AUTT27278	44" x 100' roll
AUTT27279	54" x 100' roll
AUTT27283	17" x 10' trial size
AUTT27332	8.5" x 11" (100 sheets)
AUTT27333	11" x 17" (100 sheets)
AUTT27334	13" x 19" (100 sheets)

TRIO is available off-the-shelf in 100 ft. rolls up to 60" wide on a 3" core. Common cut sheet sizes are available as well.

# EPSON PRINTERS

## Stylus Pro 9890

**Print Width:** 44 inches  
**Max Resolution:** 2880 x 1440 dpi  
**Inks:** 8-color UltraChrome K3™ with Vivid Magenta Technology

**Features:** Automatic take-up reel system, built-in automatic cutting system and adjustable roll media spindle.

## Stylus Pro 7890

**Print Width:** 24 inches  
**Max Resolution:** 2880 x 1440 dpi  
**Inks:** 8-color UltraChrome K3™ with Vivid Magenta Technology

**Features:** Built-in automatic cutting system and user-adjustable roll media spindle.

## Stylus Pro 4880

**Print Width:** 17 inches (desktop)  
**Max Resolution:** 2880 x 1440 dpi  
**Inks:** 8-color UltraChrome K3™

**Features:** Accepts cut sheet media up to 17" x 22" and rolls up to 17" x 132'. Also has built-in media cutter.

# EPSON PRINTERS Continued

## Stylus Pro 11880

**Print Width:** 63.75 inches

**Max Resolution:** 2880 x 1440 dpi

**Inks:** UltraChrome K3™ with Vivid Magenta

**Features:** Accepts roll or cut-sheet media up to 64"; features ink repelling print head and automatic switching between Matte and Photo Black inks.

# RIP SOFTWARE

## Quadra-Zeta SoftRIP®

Autotype offers software packages—based on the industry leading Wasatch SoftRIP—enhanced with custom profiles and the special features you need to produce high-quality, low-cost ink jet film positives right out of the box.

The package also includes Autotype's Start-up Guide to lead you through the set-up process and get your system running. Quadra and Zeta RIPs also provide the ability to use your ink jet printers for full-color printing and simulations as well as black ink jet positives.

MW Part #	Description
AUTAQ26251	Quadra SoftRIP with SP Screening (24"+)
AUTZ21153	Zeta SoftRIP LFE (Large-format over 24")
AUTZ15730	Zeta SoftRIP SFE (Small-format up to 24")
AUTZ21152	Zeta SoftRIP DE (Desktop printers up to 17")
AUTZ20213	Wasatch SP Screening Add-On
