

# Aluminum and Steel Sign Blanks

## Steel Sign Blanks

Great for outdoor real-estate signs and other signage. Chief's 24-gauge steel sign blanks are primed and double-coated white on both sides for a smooth glossy finish that offers excellent printability.

We recommend using enamel inks, but these durable blanks are also receptive to acrylics and UV inks (test for adhesion).

They can be decorated using lettering enamels or a variety of pressure-sensitive films.

Chief's easy-to-fabricate sign blanks stand up to the harshest outdoor elements, and they come commercially clean so after a quick wipe-down, they are ready to decorate.
