

Win at the Sign Game with Laminators' Panels!

SignBoard® and LusterBoard® Panels

Laminators' SignBoard® and LusterBoard® have a hardwood core that's lighter and stronger than MDO. **SignBoard®**, with its vinyl surface, is an economical panel that's ideal for pressure-sensitive vinyl applications. Use it for your temporary signage, such as real estate signs and billboards. It's available in prefinished single- or double-sided white. **LusterBoard®** is colorfast, impact-resistant and has a smooth, glossy, aluminum surface. It's great for your outdoor signage because it's ultra-durable and has an outdoor life expectancy of 5-7 years. LusterBoard is available in various colors and is prefinished on both sides. For outdoor use, apply an edge sealant for maximum effectiveness on both products.

SignBoard® and LusterBoard® are strong, lightweight and weather-durable. SignBoard is perfect for your temporary signage, while Lusterboard works great with cut-out shapes, post-and-panel signage and more.

ALUMALITE™ Panels

Alupalite™ is ideal for all your outdoor applications, such as this frame-mounted sign.

Lightweight and strong, Alupalite™ composite panels have prefinished aluminum on both faces to minimize warping. They are designed with a plastic core panel that will not swell or corrode. And these panels are guaranteed to resist fading and will not crack, chip, flake or peel under harsh weather conditions. Great for use with pressure-sensitive vinyls, paints and screen print inks, Alupalite panels work well for hanging signs, wall mounts, P.O.P. displays and much more!
