

ROLLEPRO

Why brush when you can *Roll!*

The RollePro by GForce Products will change the way you finish vehicle wraps.

This easy-to-use tool saves time and provides amazing results as it revolutionizes your process for applying vinyl over rivets. Just heat with one hand, roll with the other!

RollePro's ergonomic design and heat-resistant roller wheel also work great on tough contours such as:

- Moldings
- Handles
- Windows
- Textured surfaces (e.g. cinder block)

And, the RollePro's economical price means it pays for itself after just one use!

RollePro: As Easy as 1-2-3!

1 Leave an open un-squeegeed air channel over a row of rivets or around any contoured surface

2 Use a heat gun (torch preferred) and heat the loose vinyl over that area to 180 to 200 degrees

3 Use the RollePro to roll down the vinyl in one smooth motion

Find out how RollePro can save you up to 50% of your time applying vinyl over rivets and other tough surfaces. **Contact Midwest today!**
