

SUPER STRONG HIGH DENSITY URETHANE BOARD

Sign•Foam3® from Sign•Art is a high-density polyurethane board that is unlike any substrate you have used. A great alternative to redwood and cedar, it's lightweight, yet remarkably sturdy—up to 65% stronger than its predecessor, Sign•FoamIII! The unique, closed-cell structure of Sign•Foam3 makes it completely waterproof, perfect for your outdoor applications. Plus, it is unaffected by temperature or moisture and will not rot or decompose.

Sign•Foam3 is chemically resistant, so you can apply nearly any paint finish. And, its new anti-static formulation offers improved dust control so paint application is hassle-free.

Sign•Foam3 has a virtually unlimited life span in any environment, inside or out. This lasting reliability and strength make it a superior choice for all your signage! Check with your Midwest representative today to place your order for Sign•Foam3!

WHY CHOOSE SIGN•FOAM3?

- Lightweight, yet remarkably strong and durable.
- Improved dust control.
- Will not warp, split or crack.
- 100% waterproof.
- Unaffected by temperature.
- Will not rot or decompose.
- Chemically resistant.
