Poly Cote, Twin Cote & Rain Cote

Poly Cote: This white, 6-ply polyethylene-coated poster board—ideal for your point-of-purchase displays or display placards. You can use it outdoors and in high-moisture areas like grocery store produce departments. Available in 22" x 28" or 28" x 44" sheets.

Twin Cote: This economical, high-gloss display board is coated on both sides. Available in 28" x 24" sheets.

Rain Cote: This white, waterproof, outdoor poster board is coated on one side and readily accepts a variety of screen printing inks. It's the ideal choice for political or real estate signs and bus cards. Available in 28" x 44" sheets.

Flexible Magnetic Sheeting

Superior holding power...Magnum® flexible magnetic sheeting is a thermoplastic, permanent magnetic product with high-intensity, multi-pole magnetic arrangement designed to produce superior holding power on most metallic surfaces. You can die-cut, slit or punch it easily and efficiently. Available with different surfaces to accommodate all your printing methods, including screen printing, flexo, digital, offset, hot stamp, litho and more—as well as vinyl lettering. Available with or without pressure-sensitive adhesive.

Standard roll sizes: 24" x 50 feet

Thickness: .020 and .030

Also available in Magnetic Strips with or without adhesive in .060 x 1/2", 3/4" and 1" strips.

	Matte White		Brown
