

Let your creativity go wild using Dibond material from 3A Composites!

Dibond is made from two sheets of .012" aluminum with a polyethylene core. Strong and lightweight, this incredibly flat material is the ideal choice for a variety of applications because it's so easy to fabricate.

You can bend it, rout and fold it, cut and saw it, drill and punch it, print or paint it, laminate and photo mount it. With Dibond your design possibilities are unlimited!

Comparison of thickness and weight with same stiffness

THICKNESS	MATERIAL	WEIGHT
3 mm	DIBOND®	3,8 kg/m ²
2,4 mm	Full aluminium	6,5 kg/m ²
11,1 mm	PVC	5,6 kg/m ²
1,7 mm	Steel	13,3 kg/m ²
6,8 mm	Acrylic	8,2 kg/m ²

And unlike some materials, the multipurpose substrate is resistant to breakage, can be exposed to any kind of weather, and provides sound and vibration dampening. Dibond's rigid panels often require little or no substructure support, saving you material costs.

Dibond material is painted on both sides and is available in 4' x 8', 4' x 10', and 5' x 10' sheets in varying thicknesses. Dibond provides real value so you can afford to be creative!

Use Dibond for your:

- Post and panel signs
- Wall-mounted signs
- Directory signs
- Illuminated/Non-illuminated signage
- Fascia
- Awnings
- Sign Blanks
- Routed sign faces
- Backing for channel letters
- Store-front signage
- Street signs
- Exhibit booths
- POP displays
- Billboards
- Digital-electrostatic printing
- Kiosks
- Photo mounting

Random-Back sheets

If you are printing on just one side but want all of the features of Dibond's white sheeting, try Random-Back sheets from Dibond. The only difference is one side is white and the other is a random color, for a fraction of the cost of white-on-white sheeting!

E-panel material

Need an economical option for flat sheet applications? Try e-panel, which has thinner (.008") aluminum facers than Dibond. You can direct print, rout, saw cut or punch e-panel for long-lasting interior or exterior signage.

See reverse for a list of available Dibond and e-panel material!

...and more!

Dibond

Product #	Description
DIB482W	4' x 8' x 2mm White/White
DIB483W	4' x 8' x 3mm White/White
DIB483WR	4' x 8' x 3mm White over Random Color
DIB483BK	4' x 8' x 3mm Black over White
DIB483BLGN	4' x 8' x 3mm Ultra Marine Blue/Dark Green
DIB483R	4' x 8' x 3mm Hunter Red/Caution Yellow
DIB483BST	4' x 8' x 3mm Brushed Stainless over White
DIB483BB	4' x 8' x 3mm Brushed Bronze over White
DIB483BC	4' x 8' x 3mm Brushed Copper over White
DIB483BS	4' x 8' x 3mm Brushed Silver over Silver
DIB483S	4' x 8' x 3mm Dark Bronze/Fine Silver
DIB4103B	4' x 10' x 3mm Black over White
DIB5103W	5' x 10' x 3mm White/White
DIB484W	4' x 8' x 4mm White/White

E-panel

Product #	Description
ALC34280	4' x 8' x 2mm e-panel White/White
ALC34281	4' x 8' x 3mm e-panel White/White
ALC34282	4' x 8' x 4mm e-panel White/White
