

## Double Stroke Squeegee

The Action Engineering M&R Style double stroke squeegee eliminates the need for having to stroke your screen twice and gives you more penetration through the screen and substrate. They increase productivity dramatically and provide maximum penetration without bleeding through the garment.

### Features & Benefits

- Push thick Plastisol through a finer mesh count
- Improve your underbase resolution
- Reduce fibrillation
- Improve smoothness
- Improve opacity

Single squeegee

Double Stroke Squeegee

- Our Double Stroke Squeegees come with 55/90/55 Duro Rubber installed in the front and 65/90/65 Duro in the rear.
- The effect of using the second squeegee blade behind the first results in an increase of penetration into the fabric.
- Especially useful for pushing plastisol through small mesh openings — most commonly 16" (40cm) — but other sizes are available.
