

ENVIROBOARD™ MR

Quality meets Sustainability

ConVerd Enviroboard™ MR is a rigid, moisture-resistant, bright white board material that can be printed on both sides with Latex, UV Screen or UV Flatbed Digital platforms.

Enviroboard is also an FSC-certified composite that uses 10% post-consumer waste fiber to achieve maximum sustainability without sacrificing the print quality or surface characteristics required for critical POP applications. When the board is at the end of its useful life, it can be fully recycled with other paper products.

Engineered composite media provides high impact and superior crush resistance, making it an eco-friendly alternative to foam and corrugated plastic boards.

Easy to cut and install, Enviroboard is perfect for indoor and short-term outdoor POP or sign applications, such as:

- Hanging Signs
- Menu Boards
- Aisle Markers
- End Caps
- Window Signs
- Trade Show Displays

Product ID	Description
NES61505	1/8" Enviroboard 48" x 96" 20 Sheets Boxed
NES61506	1/8" Enviroboard 48" x 96" 100 Sheets Palletized
NES61507	1/8" Enviroboard 48" x 96" 250 Sheets Palletized
