

Hydrosol® 205STLR

Printable Polyester Films

Eliminate the need to laminate...
with Recycled Hydrosol® Solvent Texture
Lightblock 205STLR from Kernow Coatings!

This environmentally-friendly film
is made from 30% post-consumer
recycled content!

Beautiful Durable Graphics with No Lamination

HydroSol® Solvent Textured Lightblock 205STLR from Kernow Coatings provides excellent image quality and remarkable scratch and water resistance without lamination. And it's good for the environment! This film is made from 30% post-consumer recycled content. Create vibrant, bright displays thanks to the anti-reflective bright white finish on this film.

Excellent Ink Compatibility

The HydroSol printable polyester series of products have been formulated using components that exhibit high levels of weathering resistance (rain water & UV radiation from sunlight). These products are compatible with most Solvent, Eco-Solvent, UV and Latex inks.

Features

- Stable, durable, no-curl roll-up graphic material
- 30% post-consumer recycled content
- Anti-reflective surface for optimum ink adhesion, scratch and water resistance
- Bright white front with lightblocking antistatic grey back for >99% opacity against rear lights
- Instant roll-up displays without lamination!

205STLR Specifications

MW Part #	KER205STLR36	KER205STLR50
Width	36"	50"
Length	100'	
Thickness	8.1 mil
