

OMEGA-BOND Digital Print Grade

Featuring a special coating for enhanced UV ink adhesion exclusive to Midwest, the Omega-Bond solid core aluminum composite panels you know and love just got better.

Ideal for

- Scoreboards • Billboards
- Real Estate Signs • Fascias
- Canopies • Highway Signage
- Government Spec Work
- ... and more!

Masking Removal

For best printing results, catch one end of the plastic protective sheeting and roll around a dowel (size to suit). Roll the dowel with the masking, carefully pulling the masking away from the panel surface.

While the masking is UV-stable, it is recommended that it be removed as soon as possible after cutting.

Features and Benefits

- UL recognized component
- Digital print coated for UV printing on the most popular flatbed printers
- Perfect for direct digital printing, bending, routing, and cutting
- Flat, smooth surface ready for paint, inks, vinyl letters, and more
- Durable, water-resistant construction and solid core prevents bowing, warping, swelling, and delamination
- Class A fire rating - passed ASTM E84-16 for surface burning characteristics of building materials
- Aluminum faces are .006" on both sides of every sheet

Sizes

color	thickness	size	finished faces
white	3mm	4' x 8'	1-sided
		4' x 8'	2-sided
		4' x 10'	
		5' x 10'	
	6mm	4' x 8'	2-sided
black	3mm	4' x 8'	2-sided
silver	3mm	4' x 8'	2-sided
