

## Nazdar Series 702 Ink

The 702 Series has a comparable substrate range to the OEM inks with the noted addition of improved adhesion to Dibond and much improved adhesion to acrylics.

### Key Features and Benefits

- Chemically compatible with the OEM inks for true plug-and-profit compatibility
- Close color match to the OEM ink set
- Can be replaced one color at a time as the OEM inks run out
- Formulated for use in both flexible and rigid applications
- Excellent resistance to edge chipping on rigid substrates when used with a knife or router cutter
- Long term exterior performance with proven resistance to the effects of UV degradation and color fade
- Nazdar 702 is not compatible with Arizona 318 GL model that uses 800ml bags.
- Savings of 30% compared to OEM inks

Simply replace the empty ink bag with the Nazdar ink bag, and continue printing!
