

Nazdar Series 703 Ink

The 703 Series has a comparable substrate range to the OEM inks with the noted addition of improved adhesion to Dibond and much improved adhesion to acrylics.

For Fujifilm Acuity printers currently running the Sericol KI ink set

Key Features and Benefits

- Chemically compatible with the OEM inks for true plug-and-profit compatibility
- Close color match to the OEM ink set
- Can be replaced one color at a time as the OEM inks run out
- Formulated for use in both flexible and rigid applications
- Excellent resistance to edge chipping on rigid substrates when used with a knife or router cutter
- Long term exterior performance with proven resistance to the effects of UV degradation and color fade
- Savings of 30% compared to OEM inks

Simply replace the empty ink bag with the Nazdar ink bag, and continue printing!
