WHY ROLL-X®?

- open glide beam system
- illuminated glass table
- adjustable work table height

Mounting

One operator can mount large format film (gives you complete control so you can avoid bubbles and creases).

Lamination

Designed for cold flatbed lamination of digital signs and prints using pressure sensitive film directly from the roll or sheet by sheet (heat assist roller available as an option).

Pre-Masking

It enables a single person to apply transfer tape to cut vinyl graphics from the built in tape roll holder.

Work Table

No need for an additional cutting table—the ROLL-X will become your new work table, with a unique self-healing cutting mat.
