

PosterBOX™ Slim

Side illumination for narrow or shallow light boxes

PosterBOX™ Slim washes light across single-sided and double-sided displays using FanFlare™ lens technology that optimizes the light inside the box. The result is uniform light without the stripes associated with fluorescent tubes. The narrow silhouette of the side mounted modules makes PosterBOX Slim an excellent option for single-sided sign cabinets as shallow as 2 inches and double-sided cabinets as shallow as 4 inches. Stretch spacing is also built in, giving additional flexibility during installation, particularly in creative applications.

- Excellent white light intensity and uniformity
- Optimal for box signs as shallow as 2 inches
 - Indoor textile prints
 - Movie posters
 - Cabinets using FlexFace®

Specifications

| | | |
|------------------------------|---|----------------|
| Part number | White (6500 K) | 701946-6WXL P1 |
| | Soft White (5000 K) | 701946-5WXL P1 |
| Dimensions L × W × H | 4.87 in × 1.00 in × 0.56 in | |
| Viewing angle | 15° × 43° | |
| LEDs per module | 3 | |
| Modules per foot | 2 | |
| Module spacing | 6 inches on center | |
| Operating temperature | -40° C to +70° C | |
| Protection class | IP66 (pending) | |
| Special features | FanFlare™ lens technology Wire stretch feature | |
| Power per module | 1.38 W | |
| Efficacy | 87 lm/W | |
| Power capacity | 38 modules per SloanLED 60 W 12 VDC power supply | |
| Fastening | Peel-n-stick and mechanical | |
| Packaging | 19 ft (38 modules) per tray, 3 trays per carton | |
| Colors | White (6500 K), Soft White (5000 K) | |
| Lumens per module | 120 | |
