

Triangle ESC Eco Solvent Ink

for Epson® GS6000

Why Triangle?

- Non-toxic formula is chemically compatible with OEM
- Reduces ink cost by 40% (\$.12 per ml vs. \$.21 for OEM)
- Optimized for high pigment density and wide color gamut
- Boasts superior chemical resistance and outstanding scratch resistance
- Nickel free clean yellow formulation offers dramatic increase in outdoor durability of yellow over OEM yellow
- Custom color profiles available
- Backed by INX Digital's Worldwide Outdoor Durability and Ink Train Warranty for TRIANGLE® brand ink

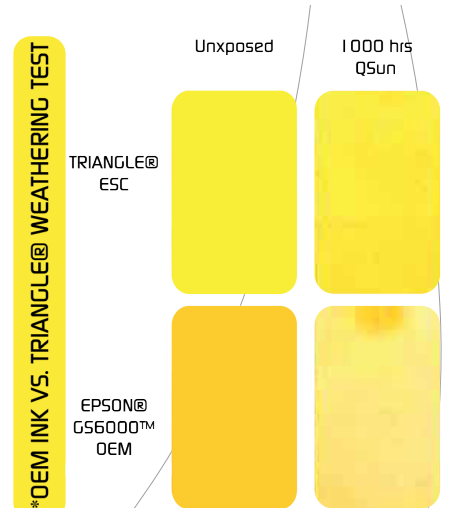

Epson GS6000

Eco Bulk Ink System

Eco Bulk takes a more sustainable approach to ink delivery. With a unique cardboard design, it is comprised of one box instead of five ink cartridges, and houses the ink within a foil bag. The foil bag contains up to 2 liters of ink, double the current industry standard. This system maintains ease of use while resulting in less waste and greater consistency. Ask your sales rep if the Eco Bulk system fits your workflow!

**Orange and Green are not converted. These remain OEM since this ink is not used as often.*

Having trouble making your yellow last? Triangle Ink has a longer outdoor life than OEM ink with a dramatic increase for yellow over OEM.

Triangle has several other alternative inks for Epson, Mimaki, Roland printers, and more.
