

MAXOPAKE INK by Union Ink

Midwest is proud to carry MAXOPAKE plastisols. Maxopake continues to be an industry standard for dark shirts. They are smooth and creamy and easy to print, and regular MAXOPAKE inks can be printed, quickly flash-cured and printed again to achieve extremely bright prints on garments that contain polyester.

Maxopake Features

- Great opacity on dark garments
- Easy to print
- Soft, creamy consistency
- Low-bleed formulations

Applications

- Dark garments - cotton or cotton/polyester blends
- Wet-on-wet direct printing
- Special low-bleed version for polyester and bleeding cotton/polyfabrics
- Manual or automatic printing

Note: The PADE versions of the inks have the same performance characteristics of the PADM inks but are **non-phthalate**.
