

MIX-OPAKE PLASTISOL INK by Union Ink

The Mix-Opake Mixing System plastisol ink is designed with the most advanced technology and made with the finest raw materials to provide the best printing opaque plastisol in the industry.

With the Mix-Opake system you can simulate almost any color in the PANTONE® Gloss Color Selector (Coated).

Mix-Opake Features

- Extremely opaque prints
- Fast, easy color mixing
- Free color formulation guide and software

Applications

- Printing for black, colored or white fabric
- Whenever accurate, consistent color-matching is required
- Direct print or various transfer applications
