### Aluminum Sign Blanks

Midwest stocks aluminum sign blanks that are pre-finished gloss white on both sides in a variety of gauges and sizes. These blanks are perfect for a variety of sign uses and can be screen printed, digitally printed, or decorated with a variety of pressure-sensitive vinyls.

*Protective clear vinyl masking on 1 side is standard except on steel blanks.*

### Steel Sign Blanks

Great for outdoor real-estate signs and other signage. Midwest's 24-gauge steel sign blanks are primed and double-coated white on both sides for a smooth glossy finish that offers excellent printability. We recommend using enamel inks, but these durable blanks are also receptive to acrylics and UV inks (test for adhesion).
